## **DETAILED ACTION**

### ***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file. However, copies of the international application and the English language translation of the international application (if the international application was filed in a language other than English) have not been received.

### ***Allowable Subject Matter***

2. Claims 1, 2, and 4-11 allowed.

3. The following is an examiner's statement of reasons for allowance:

Claims 1, 2, and 4-11 are allowed because none of the prior art of record discloses or suggests supplying a modulated current to charge the capacitance of a modulation ramp circuit, in combination with the remaining claimed features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Response to Arguments***

4. Applicant's arguments, see Remarks, filed August 16, 2006, with respect to the objection and rejections have been fully considered and are persuasive. The objection and rejections have been withdrawn.
